Chris Christie Says He Would Get Ethics Commission to Fire Judge Who Made Ruling Against Him

The New Jersey governor, on the speaking circuit, said he “apologizes if he offended anybody.” New Jersey Gov. Chris Christie was contrite after a report found that he had given top aides to the Port Authority of New York and New Jersey broad discretion to deal with the frequent traffic jams at the George Washington Bridge, and that one of his appointees threatened a federal judge who ordered the release of documents from the scandal. The four-term Republican governor, on the speaking circuit attributed the confusions over his position toward the massive lane closures to the “stress of a presidential campaign” in addition to reports that the closures, deliberately initiated by his campaign's co-chair, were an effort to torture him politically. But Christie looked especially sheepish that he might have offended one of his staunchest allies: Judge Mary L. Cooper, the conservative Mercer County, New Jersey, judge who ordered the release of documents related to the bridge project, many of them under seal as part of the Bridgegate scandal. “I apologize if I'm even perceived to have offended Judge Cooper,” Christie said. “I think she's a lovely lady, but at the end of the day, she's riding with the wrong side, as it were, today.” Cooper ordered all the documents released in November 2015, but Christie, irritated with her, refused to comply. Once the document docket release was ordered, the governor's office and that of his co-chairman, David Wildstein, ordered the lanes to the bridge between Fort Lee, N.J., and New York City closed for four days. The bridge is extremely important to Christie, who hails from Fort Lee, and the traffic jams affected many commuters. A report by the state's Attorney General's Office found that Wildstein, who resigned from the Port Authority in January 2015, threatened Cooper that she would never preside over a Bridgegate-related case again. Wildstein even asked about Cooper's daughter, who was working in the state assembly. Commissioner William Fahy, the third appointee to the Port Authority, who was also in on the lane closures and resigned in February 2015, then emailed an associate at Wildstein's behest that he was ordering a local newspaper reporter to write only positive stories about David Wildstein. Is requires “a bit of looking into to see what may have been said in a conversation,” Christie said. “While it's a sad that a judge was so interpreted by the media that maybe she was given a quote that wasn't accurate or maybe she didn't, uhm, which should remind you of the media. Remember, the media did their own vetting, they didn't vet anybody. They just ran with what they were told.

- Apply creative effects, edit image metadata, and more.

Adobe Camera Raw allows you to open up RAW files created from any of the camera vendors, such as Canon, Nikon, Pentax, and Sony. You can then edit the individual settings on each file and then export the adjustments to a TIFF or JPEG file for use in other editing programs. A good example of this would be using a set of edits that you make in Camera Raw, then combining those edits into a larger JPEG for posting online. Adobe's Photoshop Elements offers a basic version of the Adobe Photoshop program, giving you greater image editing control and additional tools than the standard version.
